Meredith Fiscal 2010 Third Quarter Earnings Rise Over 30 Percent

Company Delivers Revenue and Profit Growth Across All Major Businesses

DES MOINES, Iowa, April 28 /PRNewswire-FirstCall/ -- Meredith Corporation (NYSE: MDP), the leading media and marketing company serving American women, today reported fiscal 2010 third quarter earnings per share grew more than 30 percent to \$0.73 from \$0.56 in the prior year. Total revenues increased 5 percent to \$353 million.

Fiscal 2010 third quarter earnings included a net benefit of \$0.04 per share from special items, primarily the resolution of an income tax contingency. Excluding these special items, earnings per share from continuing operations increased 25 percent to \$0.69.

"We're pleased to deliver revenue and operating profit growth across all of our major businesses, particularly in an increasingly competitive marketplace," said Meredith Chairman and Chief Executive Officer Stephen M. Lacy. "Additionally, we continued to increase our connection to the American consumer across a variety of platforms."

Highlights from Meredith's fiscal 2010 third quarter included:

- Advertising revenue growth in the National and Local Media groups. Both groups outperformed their respective industries and continued to gain advertising market share
- Double-digit revenue increases in non-advertising based activities including integrated marketing, brand licensing, retransmission fees and video content creation.
- Further debt reduction of \$35 million, bringing fiscal 2010 year-to-date debt reduction to \$65 million.

"While our advertising growth was encouraging, we are still well below historic levels established prior to the recession in both our national and local businesses," Lacy said. "The marketplace remains very volatile on both a month-to-month and client-by-client basis. Our competitive advantage lies in the strength of our brands and the relevance of our content."

For the first nine months of fiscal 2010, earnings per share increased 24 percent to \$1.55 from \$1.25 in the prior year. Excluding special items in both periods (see Tables 1-4), earnings per share increased to \$1.52 from \$1.46. Revenues were \$1.02 billion, compared to \$1.06 billion. Meredith recorded \$18 million less (\$0.24 per share) in net political advertising in the first nine months of fiscal 2010 (a non-political year). Total company operating expenses declined 5 percent.

OPERATING DETAIL

National Media Group

Fiscal 2010 third quarter National Media Group operating profit increased 6 percent to \$51 million from \$48 million in the prior year. Revenues increased 2 percent to \$285 million from \$280 million.

Looking at third-quarter advertising performance:

- Total advertising revenues grew 4 percent to \$137 million led by Meredith's largest titles *Better Homes and Gardens, Family Circle* and *Parents*.
- Share of overall magazine industry advertising revenues reached 12.4 percent, up
 from 11.2 percent in the prior year, according to the latest data from the Publishers
 Information Bureau. Additionally, Meredith's market share as measured against its
 28-title competitive set increased to 40.6 percent, up from 39.2 percent.
- Online advertising revenues at Meredith Interactive rose more than 20 percent.

Meredith's consumer connection strengthened during the quarter, based on several key measurements. Circulation revenues rose more than 2 percent, due to an increase in newsstand sales. Monthly average unique visitors across Meredith's National Media Group Web sites rose more than 30 percent to 20 million, and monthly page views averaged more than 230 million.

Meredith Integrated Marketing revenues increased 10 percent in the quarter, led by growth in digital initiatives on behalf of existing and new clients, particularly in the pharmaceutical industry. Brand Licensing revenues grew nearly 50 percent, due primarily to an increase in sales of Better Homes and Gardens' branded products at Walmart stores.

"Along with advertising growth in our core magazine business, we are pleased that our highly sought-after digital marketing capabilities are deepening existing client relationships and winning new business," Lacy said.

For the first nine months of fiscal 2010, operating profit increased 15 percent to \$121 million from \$105 million in the prior year. Total revenues were \$817 million, compared to \$851 million, and advertising revenues were \$392 million, down slightly from the prior year. Operating expenses decreased 7 percent.

Local Media Group

Fiscal 2010 third quarter Local Media Group operating profit was \$13 million, up significantly from \$1 million in the prior year. Revenues increased 20 percent to \$69 million from \$57 million.

Looking at third-quarter advertising performance:

- Non-political advertising revenues grew 16 percent, led by improved performance in the automotive, professional services and retail categories.
- Meredith stations in all 10 of its television markets delivered growth, led by strong performances in Atlanta, Phoenix and Hartford.
- Meredith outperformed the industry according to the most recent data available from the Television Bureau of Advertising.

Several Meredith television stations delivered improved ratings during the February sweeps. Atlanta doubled morning news ratings, while Hartford and Greenville posted double-digit ratings gains. In evening news, Hartford, Kansas City, Greenville and Las Vegas all grew ratings.

Revenues from retransmission fees rose nearly 15 percent in the third quarter. Revenues also grew at Meredith Video Studios, driven primarily by custom video projects for corporate clients. Also, the daily *Better* television show will increase its carriage to more than 60 markets reaching nearly 50 percent of U.S. television households.

"Our Local Media business delivered significantly improved results across the board, a reflection of improving market conditions and success at executing our performance improvement initiatives," Lacy said. "Additionally, it speaks to broadcast television's unparalleled ability to deliver advertising messages to mass audiences in local markets."

For the first nine months of fiscal 2010, operating profit was \$32 million, compared to \$34 million in the prior year, primarily due to \$18 million less in net political advertising revenues. Total revenues were \$205 million, compared to \$212 million. Non-political advertising revenues increased 2 percent to \$182 million from \$178 million. Operating expenses declined 3 percent.

OTHER FINANCIAL INFORMATION

Meredith generated \$140 million in cash flow from operations during the first nine months of fiscal 2010. Meredith's total debt was \$315 million at March 31, 2010, \$65 million less than at the prior fiscal year end. Meredith's debt-to-EBITDA ratio was well under existing debt covenants at 1.4 to 1.

Total company operating expenses in the third quarter of fiscal 2010 were up slightly. This was primarily due to a client bankruptcy; our investment in Next Issue Media, the e-Reader consortium; and severance costs related to an organizational realignment. Total company operating expenses declined 5 percent for the first nine months of fiscal 2010.

All earnings per share figures in the text of this release are diluted. Both basic and diluted earnings per share can be found in the attached condensed consolidated statements of earnings.

- Local Media Group non-political advertising revenue, which is currently pacing up in the high teens, and;
- National Media Group advertising revenue, which with two of three magazine issues closed, is expected to be flat to up slightly.

Meredith currently expects fiscal 2010 fourth quarter earnings per share to range from \$0.61 to \$0.66, and full year fiscal 2010 earnings per share are expected to range from \$2.13 to \$2.18, excluding special items.

A number of uncertainties remain that may affect Meredith's outlook as stated in this press release for the fourth fiscal quarter and full year of 2010. These uncertainties are referenced below under "Safe Harbor" and in certain SEC filings.

RATIONALE FOR USE AND ACCESS TO NON-GAAP MEASURES

Management uses and presents GAAP and non-GAAP results to evaluate and communicate the performance of the company. Non-GAAP measures should not be construed as alternatives to GAAP measures. EBITDA is a common supplemental measure of performance used by investors and financial analysts. Management believes that EBITDA provides an additional analytical tool to clarify the company's results from core operations and delineate underlying trends. Meredith does not use EBITDA as a measure of liquidity or funds available for management's discretionary use because it includes certain contractual and non-discretionary expenditures.

Results excluding the special items recorded in fiscal 2010 and 2009 are also supplemental non-GAAP financial measures. Management believes these items are not reflective of Meredith's ongoing business activities. While results excluding the special items are not a substitute for reported earnings results under GAAP, management believes this information is useful as an aid in better understanding Meredith's current performance, performance trends and financial condition. Reconciliations of non-GAAP to GAAP measures are included in the attached tables. The attached consolidated financial statements and reconciliation tables will be made available at www.meredith.com.
